CLUB COACH PROGRAM

- All current and future club coaches who bring their club to Distinguished or better status before June 30, 2020 will receive BOTH their club support credit AND their district leadership credit toward their DTM.
- Credits earned can be applied to any current or future DTM in either the Traditional or the Pathways program.
- Credits can be split - you can use the coaching credit for a current DTM and save the district leadership credit for a future DTM, or vice versa.
- Club coaches under this program can compete in speech contests.
- This double credit does not expire. It may be used now or anytime in the future, including for an award after July 2020.
- To apply the additional credit for district leadership, a club officer will need to complete a copy of the appropriate education award application and email it to educationprogram@toastmasters.org. Submissions containing the additional credit for district leadership cannot be processed online through Club Central.
