

# District 33 Presents

## Chuck Hooper

## With Two Seminars

### 1. Structure and Deliver a Great Speech

Successful speakers know there are 5 critical things to consider before giving a presentation:

- 1) Knowing the Audience
- 2) Really understanding the Goal
- 3) Knowing how their information will be received
- 4) Knowing the parts of the speech (Grab! Guts. Gotcha!)
- 5) A secret weapon we ALL have available to us

### 2. Present Virtually Like a Pro

We've all been thrown into the virtual world! Learn how to make the right impression as a virtual guru every time you attend, or star in, a virtual meeting.

We'll cover: Audio, Video, Lighting, Backgrounds, Bandwidth issues, crisis recovery, and more. Plus... some fun tricks to baffle and entertain others in the meeting.
