### Relevant work experience and how it relates to Toastmasters and your role as a District leader:

I have 20 years extensive experience in planning, implementing, and evaluating various small and large scale but notable education, communication, and leadership programs involving people from diverse backgrounds and educational levels. I also have a rich repertoire of information, education, training and development experience having worked as teacher for 15 years, journalist-editor, corporate communication officer for both private and public organizations here and abroad. In addition, I have extensive leadership experience leading volunteer organizations e.g. as president of local and international organizations like Junior Chamber Intl. now Toastmasters and my additional current roles as department chair for the biggest dept. in our school district, mentor for new teachers and coordinator for student success.

As club president, I led my team towards being President's Distinguished in 2021.  
As Club Coach, I worked with the club to become President's Distinguished.  
As Area Director, I worked with my team to make sure they hold quality meetings, engage their members, and achieve their individual and club goals.  
As Co-Chair and Toastmaster for the Club Officer Training this term, I worked closely with my co-chairs and team of instructors and functionaries to plan and execute a successful training for both new and experienced officers from our district from other visiting districts.  
As speech contest chair, I work closely and in collaboration with my team to make sure we plan and execute a contest that will showcase our contestants speaking skills as well as provide hands-on learning opportunity in communication and leadership development for all involved.  
As charter president of Halo-Halo TM, I collaborated with sponsors and mentors to build a strong club, with cultural backgrounds, but common goal; which is empowerment through communication and leadership skills development through Toastmasters.

Generally, as a club member and officer, I am called the "Mountain Mover, because I am always willing to learn and to serve no matter the challenges.

### What experience do you have in strategic planning?

Starting with needs assessment to planning and evaluation, I started and operated a 5-star day care center for a power corporation abroad. I was also responsible for planning, implementing and evaluating the impact of an internationally funded comprehensive development program for the social services department. Now, I am blessed to have the opportunity to lead Area A6, conduct our district's club officer training (Round 1,2,3) and chair our speech contest for Areas A1,A2, A4, A5 & A6. Information, education and professional development are fields I am very passionate about because I believe that success comes from a people, processes, and results. I truly believe that building a strong team, empowering my fellow leaders, and inspiring members through knowledge of my job or role, hard work and good example, and genuinely caring for and valuing each member are very important ingredients for success.

### What experience do you have in the area of finance?

As department chair of one of the biggest departments in my school district, I am in charge of and responsible for strategic planning and responsible oversight and use of our finances and resources. As past President of my local club (Junior Chamber Intl. or Jaycees), I provide oversight, and thus is responsible for making sure that our finances are secured and managed properly. As program coordinator of a day care center, I made sure that finances are managed well so that we can continue to provide needed resources to keep the 5-star level of service and care for our students and families. I have written and have been awarded funding for grants for literacy and education programs here and abroad.

What experience do you have in developing procedures?

I have various involvements in developing procedures for both private and public or state organizations. I have organized and hosted programs and events. Abroad, I organized IEC (info, education and communication) successful campaigns which involved planning agenda for meetings, procedures for motorcades and caravans, procedures for contests and elections and other promotional activities. I was also directly involved in the successful planning and implementation of training and conferences to include events in South East Asia, Canada.

What lessons did you learn from previous leadership positions?

I learned that in order to be an effective leader, I have to have the heart to lead by example. In other words, I have to know my 'why' or purpose be the first to serve in order to manifest the 'whys' into action as well as motivate others to give their best. In addition, I truly believe that building a strong team, empowering my fellow leaders, and inspiring members through knowledge of my job or role, hard work and good example, and genuinely caring for and valuing each member are very important ingredients for success.

Why do you want to serve as a District leader?

I am blessed to be a receiver, and now, I am committed to be a happy giver. I believe that I have been abundantly blessed to receive knowledge, experience, training from my fellow Toastmasters-leaders and communicators alike- and I am happy to serve as a District Leader. Through Toastmasters, specifically our district leaders and members, I embraced opportunities, especially in the last two years, to step outside of my comfort zone to improve my communication and leadership skills. The friendship, network and new-found skills I accumulated can be put to action as I inspire and empower others to be excellent leaders and communicators in the capacity as district leader.

In your opinion, what are the District mission's major objectives and how would you work to achieve them?

Toastmasters is in the forefront of empowerment through communication and leadership development. The structure, procedures, resources, and the leaders and members of our organization know that their lives have greatly improved because of the supportive and positive environment provided by Toastmasters. If given the opportunity to be a district leader, I will continue to give my best in order to support Toastmasters mission and objectives. If given the opportunity, I will continue to be the leader and communicator that I am now, plus, continue to learn and serve as an inspiration to others. I believe that to build a strong organization, I have to work hard, along with the leadership team for a robust membership program to bring in new members and organize new clubs, support the growth and goals achievement of existing members and existing clubs, and to continue to inspire members to be the best they can be.

Additional information about yourself:

Great is my respect for the values promoted by Toastmasters - integrity, respect, service, excellence. If given the opportunity to serve as Division A Director, I can bring in the knowledge, skills, and experience that I have accumulated and have proven to be successful in my personal and professional life so that I can contribute to the district's efforts and success. I am committed to lead and I am committed to serve.
